 PLEASE REFER TO IMPORTANT INFORMATION BELOW

IMPORTANT AND USEFUL INFORMATION

1. One supply per stand: For safety reasons it is Council's policy to install one supply per stand and the crossing of stand boundaries with electrical apparatus is illegal unless the stands are notorially tied in which case it is regarded as one stand.
2. Occupational Health and Safety Act inter alia states the following:
 - The user or the lessor of an electrical installation shall be responsible for the safety, safe use and maintenance of the electrical installation he uses or leases.
 - Every user or lessor of an electrical installation shall have a valid certificate of compliance in respect of every installation.
 - No person shall commence with installation work, which would require a new electricity supply or an increase in electricity supply capacity unless the supplier has been notified thereof with a Commencement form (Annexure 2).
 - Only an accredited person, after having satisfied himself by means of an inspection and test that an electrical installation complies with the provisions of the safety standard as detailed in the Act, may issue a certificate of compliance.
3. The following tariffs are available:
 - Tariff B (Residential and bulk residential)
 - a. Single phase 230 V or multi-phase 400/230 V connections including bulk residential complexes, body corporate, block of flats, etc.
 - b. With the exception of the Resellers section, "bulk residential" is NOT available for medium and high voltage customers.
 - Residential Resellers Tariff
 - a. Multi-phase 400/230 V or > 400 V connections for bulk residential complexes, body corporate, block of flats, etc.
 - Tariff B (Business, Mixed Business and Residential, Commercial or Industrial)
 - a. Single phase 230 V or multi-phase 400/230 V connections with a capacity of up to and including 150 A per phase or 100 kVA.
 - b. This tariff is NOT available for medium and high voltage customers. This tariff will suit medium to high consumption small business customers.
 - Tariff C – Existing tariff C customers only, no new customers allowed.
 - a. Exception of customers who select the tariff C-Off-peak option only
 - b. Suitable for large business and industrial customers.
 - Tariff D - Bulk supplies at any voltage and with a capacity of at least 1MVA Suitable for large business and industrial customers.
 - Tariff E --- Bulk supplies at any voltage and capacity of >25kVA and a NAC of < 1 MVA
 - a. Suitable for small to medium size business and industrial customers
 - b. Available for new and existing customers
4. Note: Supporting documents will be required by CoE Finance Section when entering into supply agreement with Council.
5. The City of Ekurhuleni shall have the right to refuse to sell electricity to any customer who has any unsettled debt with the Municipality.
