

Item A-F (16-2022) CM 26/05/2021	MEDIUM-TERM REVENUE AND EXPENDITURE FRAMEWORK (MTREF) FOR 2022/23 TO 2024/25 AND NEW INTEGRATED DEVELOPMENT PLAN (IDP) FOR 2022/23 TO 2026/27
---	--

Resolved:

8. **That** the Medium-term Revenue and Expenditure Framework for 2022/23 to 2024/25 and the new integrated Development Plan for 2022/23 to 2026/27 financial period, inclusive of the tariffs and draft budget-related policies, as contained in the Budget Document **BE APPROVED**.

POLICIES

- Annexure E1** Medium-term Budget Statement Policy (Reviewed)
- Annexure E2** Pricing Policy Statement (Reviewed)
- Annexure E3** Property Rates Policy (Reviewed)
- Annexure E4.1** Provision of Free Basic Electricity Policy (Reviewed)
- Annexure E4.2** Provision of free Basic Water supply services (Reviewed)
- Annexure E5** Waste Management Tariff Policy (Reviewed)
- Annexure E6** Consumer Deposit Policy (Reviewed)
- Annexure E7** Indigent Support Policy (Reviewed)
- Annexure E8** Credit Control & Debt Collection Policy (Reviewed)
- Annexure E9** Provision for Doubtful Debtor and Debtor Write-Off Policy (Reviewed)
- Annexure E10** Budget Implementation and Monitoring Policy (Reviewed)
- Annexure E11** Municipal Entity Financial Support Policy (Reviewed)
- Annexure E12** Accounting Policy (Reviewed)
- Annexure E13** Electricity Metering for Residential and business Customers (Reviewed)
- Annexure E14** Policy for the vending of pre-paid electricity (Reviewed)
- Annexure E15** Policy for Estimation and Correction of Energy or Demand Meter Reading and Billing Data (Reviewed)
- Annexure E16** Electricity Tariff policy (Reviewed)
- Annexure E17** Virements Policy (Reviewed)
- Annexure E18** Consumer Agreement (Reviewed)
- Annexure E19** Supply Chain Management Policy (Reviewed)
- Annexure E20** Treasury Policy (Reviewed)
- Annexure E21** Funds Transfer Policy (Reviewed)
- Annexure E22** Assets Management Policy (Reviewed)
- Annexure E23** Cost Containment Policy (Reviewed)
- Annexure E24** Policy for the wheeling of Electricity (Reviewed)
- Annexure E25** Policy guideline for Small-scale Embedded generation (Reviewed)
- Annexure E26** Ekurhuleni Community Enterprise Development Fund Policy (Reviewed)
- Annexure E27** Long Term Financial Strategy 2020/21-2029/30

VIREMENT POLICY

1. INTRODUCTION

The compilation of a virement policy is based on the guidelines issued in Budget Circular No 51 and mSCOA Circular 8 published by National Treasury. The MFMA and the Municipal Budget and Reporting Regulations seek to move municipalities away from the traditional approach of appropriating/approving budgets by line item. The aim is to give the heads of municipal departments and programmes greater flexibility in managing their budgets. To further facilitate this, each municipality must put in place a council approved virements policy, which should provide clear guidance to managers of when they may shift funds between items, projects, programmes and votes.

Webster's New Millennium™ Dictionary of English defines "Virement" as "a regulated transfer or re-allocation of money from one account to another, especially public funds." A virement represents a flexible mechanism to effect budgetary amendments within a municipal financial year.

Changing circumstances and priorities during a financial period may give rise to a need to virement (transfer) funds within or between approved Votes, as defined in the Municipal Finance Management Act 56 of 2003 (MFMA). The treatment of such instances may, however, be dependent on whether an adjustments budget is required or not.

2. PURPOSE

- a) The Group Chief Financial Officer has a statutory duty to ensure that adequate policies and procedures are in place to ensure an effective system of financial control. A municipality's virement policy and its underlying administrative process within the system of delegations is one of these controls;
- b) Section 81(1)(d) of the MFMA states inter alia that "*The chief financial officer of a municipality-...must advise senior managers and other senior officials in the exercise of powers and duties assigned to them in terms of section 78 or delegated to them in terms of section 79;*"
- c) It is the responsibility of each Head of Department to which funds are allocated, to plan and conduct assigned operations so as to not expend more funds than budgeted and to ensure that funds are utilized effectively and efficiently;
- d) Section 78(1)(b) of the MFMA states inter alia that "*Each senior manager of a municipality and each official of a municipality exercising financial management responsibilities must take all reasonable steps within their respective areas of responsibility to ensure-...(b) that the financial and other resources of the municipality are utilized effectively, efficiently, economically and transparently;*" and
- e) This policy aims to provide guidelines to senior management in the use of virements as a mechanism in their day-to-day management of their budgets. In addition, it specifically aims to empower senior managers with an efficient financial and budgetary system to ensure optimum service delivery within the current legislative framework of the MFMA and the municipality's system of delegations.

3. DEFINITIONS

- a) *Accounting Officer (MFMA)*
“- (a) in relation to a municipality, means the municipal official referred to in section 60 of the MFMA
- b) *Approved Budget (MFMA)* “- means an annual budget-
i. approved by a municipal council; or
ii. approved by a provincial or the national executive following an intervention in terms of section 139 of the Constitution, and includes such an annual budget as revised by an adjustments budget in terms of section 28;”
- c) *Group Chief Financial Officer (MFMA)*
“a person designated in terms of section 80(2)(a) of the MFMA”.
- d) *Head of Department*
Section 56 of the Systems Act states inter alia that: “Appointment of managers directly accountable to municipal managers - (a) a municipal council, after consultation with the municipal manager, appoints a manager directly accountable to the municipal manager...”
- e) *Financial year*
The 12-month period between 1 July and 30 June.
- f) *mSCOA Project*
Capital projects refer to expenditure of a "long term nature" and capitalised to the Property, Plant and Equipment group of accounts in the financial statements. Projects are therefore created along this definition of capital and the detail included under the labels for either infrastructure or non-infrastructure projects.

Operational projects refer to current and short term projects for which the cost is immediately recognised as an expense and funded from the municipalities operational budget.
- g) *mSCOA Function (vote as per MFMA)*
i. Function is the standardised vote structure referred to in Section 1 of the Municipal Finance Management Act;
ii. Function is one of the main segments into which a budget of a municipality is divided for the appropriation of money for the different departments or functional areas of the municipality;
iii. which specifies the total amount that is appropriated for the purposes of the department or functional area concerned.” and
iv. The City of Ekurhuleni (CoE) definition of function is set at department level.
- h) *mSCOA Funding Source*
Funding sources available to the municipalities to invest in municipal activities.
- i) *Municipal Classification*
The Municipal Classification is the 7th unregulated SCOA segment and is informed by the organisational structure of a municipality.

j) *Regional Segment*

The purpose of the regional segment is to assign municipal expenditure at the discretion of the municipality to the lowest relevant geographical region to identify the communities that benefit from spending. This implies that expenditure must be recorded so that the final impact of such spending can be measured by region in order to get a regional view of the economic impact of government spending.

k) *Virement*

The process of transferring an approved budgetary provision from one operating cost element or capital project to another within a function during a municipal financial year, which results from changed circumstances from that which prevailed at the time of the budget adoption.

4. MFMA REGULATION ON BUDGET VERSUS EXPENDITURE

a) The MFMA regulates as follows regarding the incurring of expenditure against budgetary provisions. Section 15 – Appropriation of funds for expenditure
“A municipality may, except where otherwise provided in this Act, incur expenditure only-

- i. in terms of an approved budget; and*
- ii. within the limits of the amounts appropriated for the different votes in an approved budget.”*

b) Unauthorized expenditure (MFMA Definition)

“in relation to a municipality, means any expenditure incurred by a municipality otherwise than in accordance with section 15 or 11(3), and includes-

- i. overspending of the total amount appropriated in the municipality's approved budget;*
- ii. overspending of the total amount appropriated for a vote in the approved budget;*
- iii. expenditure from a vote unrelated to the department or functional area covered by the vote;*
- iv. expenditure of money appropriated for a specific purpose, otherwise than for that specific purpose;*
- v. spending of an allocation referred to in paragraph (ii), (iii) or (iv) of the definition of "allocation" otherwise than in accordance with any conditions of the allocation;*
or
- vi. a grant by the municipality otherwise than in accordance with the MFMA;”*

c) Overspending (MFMA Definition)

- i. “in relation to the budget of a municipality, means causing the operational or capital expenditure incurred by the municipality during a financial year to exceed the total amount appropriated in that year's budget for its operational or capital expenditure, as the case may be; and*
- ii. in relation to a vote, means causing appropriation under that vote to exceed the amount budgeted for that vote; or*

Section 71(1)(g)(iii) states inter alia *“(1) The accounting officer of a municipality must by no later than 10 working days after the end of each month submit to the mayor of the municipality and the relevant provincial treasury a statement in the prescribed format on the state of the municipality's budget reflecting the following particulars for that month and for the financial year up to the end of that month:...(g) when necessary, an explanation of- ...(iii) any remedial or corrective steps taken or to be taken to ensure that projected revenue and expenditure remain within the municipality's approved budget....”*

5. VIREMENT REQUIREMENTS

- a) The virement process represents the major mechanism to align and take corrective (financial/budgetary) action within a department or functional area during a financial year;
- b) Virement within the mSCOA Function is permitted as the total amount appropriated for the purpose of the functional area will not increase or reduce. Virement from one mSCOA Function to any other mSCOA Function is not permitted in terms of the National Treasury Circular 89;
- c) Virement is only permitted for transfer within the same Funding Source. Any virements to or from a different Funding Source should be done through adjustment budget;
- d) Virement to or from the Municipal Classification segment
In order for a function (department) to transfer funds from one cost center to another cost center, a saving has to be identified within the monetary limitations of the approved “giving” cost center allocations on the respective budgets;
- e) Virement to or from mSCOA Regional segment is permitted on condition that it does not hinder service delivery with regards to the delivery of ward priorities as approved in the adopted or adjustment budget;
- f) Sufficient, (non-committed) budgetary provision should be available within the “giving” vote or project concerned to give effect to the budgetary transfer (virement). In addition, the transferring function must clearly indicate to which cost center or capital project the budget provision will be transferred to and provide a clear motivation for the transfer;
- g) Any budgetary amendment of which the net impact will be a change to the total approved annual budget allocation and any other amendments not covered in this policy are to be considered for budgetary adoption via an adjustments budget (per MFMA Section 28); and
- h) In terms of Section 17 of the MFMA a municipality’s budget is divided into an operating and capital budget and consequently no virements are permitted between Operating and Capital Budgets.

Budget Circular 51 and mSCOA Circular 8 issued by National Treasury gives the following guiding principles which could be incorporated into the virements policy:

- *A Project extending over/ incorporating more than one mSCOA function or sub function, then savings in the budgetary allocation in a function or sub-function may be applied across the functions and/ or sub-functions directly linked to the same Project and Funding Source;*
- *Virements should not be permitted in relation to the revenue side of the budget;*
- *Virements between functions should be permitted where the proposed shifts in funding facilitate sound risk and financial management (e.g. the management of central insurance funds and insurance claims from separate votes);*

- *Virements from the capital budget to the operating budget should not be permitted, Operational funds to the Capital Budget may be done, but only via an adjustments budget; ;*
- *Virements towards personnel expenditure should not be permitted, except where:*
 - *temporary/ contracted (budget for as contracted services in terms to the mSCOA Classification) staff status has changed to permanent staff; or*
 - *the budget savings resulted from Outsourced Services within the same function in terms of a Council delegated authority).*
- *Virements to or from the following items should not be permitted: bulk purchases; debt impairment, interest charges; depreciation, grants to individuals, revenue foregone, insurance and VAT;*
- *Virements should not result in adding 'new' projects to the Capital Budget;*
- *Virements of conditional grant funds to purposes outside of that specified in the relevant conditional grant framework must not be permitted; and*
- *There should be prudent limits on the amount of funds that may be moved to and from a function and its sub-functions. In terms of national best practise, a maximum percentage or monetary value of the budget of a Function/ programme/ project may be re-allocated/ shifted through virement (e.g. not more than 5 per cent of the budget may be moved to or from a function, programme, project, etc.)*

6. OPERATING BUDGET VIREMENTS

- a) Virements are not allowed to utilize special purpose budgetary allocations, adopted by Council as such and to which specific Council recommendations apply and which result from specific resolutions adopted when adopting the budget, as virement sources;
- b) Virement is not permitted from the repairs and maintenance projects being part of the Operational project segment. Virement to or within the repairs and maintenance projects is allowed;
- c) Virement to or from the municipal running cost projects and virement to or from typical work stream projects is allowed;
- d) Sound motivations should be provided for all virements, as provided for on the virement documentation. Motivations for virements between projects should clearly state the reason for the saving within the "giving" project, as well as the reason for the additional amount required;
- e) Revenue items:
 - i. Except for Operating and Capital Transfers and Subsidies revenue items, no virements will be approved on any Revenue elements. Revenue provisions' amendments are to be adopted via an adjustments budget; and
 - ii. Virement of the income budget between the various CCA's are allowed, as long as the income category is not increased/decreased. (motivation – though the total per category is not changing, it might be necessary to adjust the income budgets between the various income line items or CCA budgets).

Virements on various mSCOA item expenditure are discussed below:

- f) Employee related costs:

- i. Virements are allowed between line items of - and only if these virements are within - this item expenditure;
 - ii. Virements are allowed between the various cost centers due to the change of the organizational structure of Council. (motivation – staff move in a department to other divisions or even CCA's); and
 - iii. Virements are allowed in cases where a general provision was made for certain type of salary expenses (i.e. general provision made for temporary appointments for staff on maternity leave of long extensive sickness, allocation of pooled funds for new positions, etc.).

- g) Remuneration of Councilors
 - i. Virements within this category are allowed; and
 - ii. No virements to and from this category are allowed.

- h) Transfers and Subsidies - Operational:
 - i. No virements are permitted to and from Transfers and Subsidies - Operational, except if supported by a Council decision for such transfer and as per the approved Grants-in-Aid Policy.

- i) Any other expenditure items (general expenditure)
 - i. Virements to and from General Expenditure are allowed

- j) The following categories are not to be used as sources of virements, but virements are allowed within each line item:
 - i. Training related expenditure;
 - ii. Bargaining Council provisions and skills development levies;
 - iii. Insurance related provisions;
 - iv. Pensioner and Continued Members; and
 - v. All vehicle operating budget line items.

- k) No virements are allowed to and from the following items or provisions:
 - i. Capital Expenditure-related elements;
 - ii. Scrapping of Assets / Stock;
 - iii. VAT; and
 - iv. Insurance Fund.

- l) Contracted Services
 - i. Virements to and from these items are allowed.

- m) Departmental charges and internal cost line items

Provision is made for the charges of some internal costs to various departments including departmental costs of municipal services. Departments are not allowed to use any of these line items as a source of virement. However, the Group Chief Financial Officer may effect virements within this category of line items, both in terms of expenditure and income recoveries.

- n) No virements will be permitted to and from the following expenditure categories, unless such amendments are effected within the line item:
 - i. Bulk Purchases (unless it directly relates to additional income from sales);
 - ii. Debt impairment;
 - iii. Interest Charges and Depreciation;
 - iv. Indigent Relief and Income Forgone; and

- v. Appropriation Account.
- o) Virements may not increase or decrease the total approved budget
- p) Virements will be approved on condition that the requirements of all mSCOA segments are met.

7. CAPITAL BUDGET VIREMENTS

- a) Only virements which relate to projects approved as part of annual or adjustments budget, will be permitted;
- b) No virements of which the affect will be to add “new” projects onto the Capital budget will be allowed;
- c) Virements must be between projects of similar funding sources (e.g. from EFF to EFF);
- d) Implementation of the project from which funds are viremented may not be prejudiced (i.e. must not hinder completion of the project);
- e) Virements are not allowed if the IDP goal or the SDBIP target is affected. Such cases must be addressed in the Adjustment Budget; and
- f) Motivations for virements should clearly state the reason for the saving within the “giving” project, as well as the reason for the additional amount required.

8. PROCESS AND ACCOUNTABILITY

- a) Accountability to ensure that virement application forms are completed in accordance with Council’s Virement Policy and that these are not in conflict with a department’s strategic objectives rests with the Head of Department;
- b) Completed virement documentation is to be effected by the Divisional Head: Budget and Management Accounting after the necessary approvals have been consented to in signature;
- c) Despite the above conditions the Group Chief Financial Officer may implement additional conditions for any transfers within the Virement Policy. Such conditions may be addressed before the implementation of the new budget or during the financial year. This would enable the GCFO to comply with any national or provincial directives issued during the year;
- d) mSCOA (Standard Chart of Accounts) Requirements
Any virements between existing line items or from existing line items to new line items as prescribed in the Standard Chart of Accounts be allowed to eventually comply fully with the line items as per the Standard Chart of Accounts.

9. EFFECTIVE DATE

This reviewed policy will be effective as from 1 July 2022
