8. **Adjudication using a Points System**

   Acceptable bids will be evaluated using a system that awards points on the basis of bid price and specific goal/s. Failure on the part of a bidder to submit proof of specific goal/s claim will be interpreted to mean that preference points for specific goal/s are not claimed.

   For bids with a bid amount equal to or above R2 000 and up to a Rand value of R 50 million (all applicable taxes included) a maximum of 80 points is allocated for price and a maximum of 20 points for specific goal/s points. For bids with a bid amount above R 50 million (all applicable taxes included) a maximum of 90 points is allocated for price and a maximum of 10 points for specific goal/s points.

   The Municipality shall award the Contract to the Bidder obtaining the highest number of points for Price and specific goal/s calculated in accordance with the Preferential Procurement Regulations, 2022, unless there are grounds to justify the award to another bidder, in accordance with the provisions of Section 2 (f) of the Preferential Procurement Policy Framework Act, Act No. 5 of 2000.
9. PREFERENTIAL PROCUREMENT REGULATIONS (PPR) 2022 DEFINATION OF PRICE APPLICATION

The price used for evaluation of tenders is the price inclusive of all applicable taxes as per regulation 4(1) and 5(1). All applicable taxes certainly will include Value Added Tax (VAT), where applicable, and any other taxes as may be imposed through legislation. Whatever the nature of the tax, it should be included in the price submitted.

It is emphasized that mandatory registration for VAT is a legislative requirement once enterprises exceed R1 million in sales within a 12-month period. Other enterprises may elect voluntary registration for VAT even if they do not meet the mandatory threshold for registration.

10. Evaluation on Functionality

10.1 Evaluation on Functionality shall be in accordance with the CoE Supply Chain Management Policy as follows:

When functionality will be evaluated the following shall be clearly specified in the invitation to quote/bid:
- Evaluation criteria for measuring functionality
- Weight of each criterion
- Applicable values
- Minimum qualifying score for functionality.
- Respondents that have achieved the minimum qualification score for functionality shall be evaluated further on price and preference points.
- Respondents that did not achieve the minimum qualification score for functionality shall be eliminated from further evaluation.

10.2 Accordingly, where an invitation to submit a tender indicates that the tender will be evaluated on functionality, all acceptable bids submitted shall be firstly evaluated on functionality and, all acceptable bids that achieve the minimum score for functionality, as indicated in the tender invitation, shall be further evaluated in terms of the points system referred to above.

11. Remedies

The City Manager must act in terms of Regulation 9 of the Preferential Procurement Policy Regulations, 2022, in circumstances contemplated in Regulation 9 (1) which is outlined below;

(9)(1) If an organ of state is of the view that a tenderer submitted false information regarding a specific goal/s, it must—
(a) inform the tenderer; accordingly, and
(b) give the tenderer an opportunity to make representations within 14 days as to why the tender may not be disqualified or, if the tender has already been awarded to the tenderer, the contract should not be terminated in whole or in part.

(2) After considering the representations referred to in subregulation (1) (b), the organ of state may, if it concludes that such information is false—
(a) disqualify the tenderer or terminate the contract in whole or in part; and
(b) if applicable, claim damages from the tenderer.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

1. This Form “E” must form part of all bids¹ invited.
2. Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a pe se prohibition meaning that it cannot be justified under any grounds.
3. Municipal Supply Chain Management Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
   a. take all reasonable steps to prevent such abuse;
   b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and

5. In order to give effect to the above, the attached Certificate of Bid Determination (Form “E”) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

CONTRACT PRICE ADJUSTMENT

For this contract, the escalation (for Labour, Plant, Materials and Fuel) will apply to the rates of all items irrespective of whether the item is influenced by changes in the indices. Rise and fall will therefore not be applicable for this contract.

For the changes to the rates, it is assumed that the rates are composed as follows:

Labour: 60%
Plant: 20%
Material: 10%
Fuel: 10%

Changes in rates due to the variation of Fuel costs will be applied every month based on the Wholesale cost of Diesel (0.05% Sulphur) in Gauteng

Changes in rates due to the variation of Labour, Plant/Machinery and Material Costs will be applied on an annual basis based on the CPI, Plant/Machinery and Material indexes as issued by Statistics SA.
The bid rates shall be increased or decreased every month by a factor determined by the formula below, rounded off to the fourth decimal place:

\[
Factor = 0,60 \times \left( \frac{Lt}{Lo} \right) + 0,20 \times \left( \frac{Pt}{Po} \right) + 0,1 \times \left( \frac{Mt}{Mo} \right) 0,1 \times \left( \frac{Ft}{Fo} \right) - 1
\]

Where:

“L” is the “Labour Index” and shall be the “Consumer Price Index” for the historical metropolitan areas as reflected in Table 2.1.1 of the Statistical Release P0141 as published by Statistics South Africa

“P” is the “Plant Index” and shall be the “Civil Engineering Plant Index” as reflected in Table 12 of the Statistical Release P0142 as published by Statistics South Africa

“M” is the “Material Index” and shall be “Civil Engineering Construction Material Index” as reflected in Table 12 of the Statistical Release P0142 as published by Statistics South Africa

“F” is the “Fuel Index” and shall be the Wholesale price of 0,05% Sulphur Diesel (Inland) as published by the Department of Minerals and Energy.

The suffix “o” denotes the base indices applicable to the base month which shall be the month before the closing date of the bids for Labour, Plant and Material and the month in which the bids closed for Fuel.

The suffix “t” for Labour, Plant and Material denotes the current indices applicable to the month two months before that month in which the last day of the period falls to which the relevant monthly statements relate but for Fuel, the current month index/price will apply.

For Labour and Plant, the indices will be adjusted on an annual basis in the month following the month in which the bids closed while for Fuel, the rates will be adjusted every month. If therefore the bid closing date is in the rates will increase for Labour, Plant and Material cost changes on 1 July of each year utilizing the May indices of the particular year.
