GENERAL CoE CHALLENGES

- The **significant outstanding debts and nonpayment for services rendered** limits available resources, making it challenging for the City to address all community needs within a single financial year.
- **Growing population** results in growing demand for services and resources which need to be addressed with limited resources.
- **Aging and constrained infrastructure** which requires resources to be allocated to refurbishments, upgrades and repairs.
- **Theft and vandalism of infrastructure** – city is increasing efforts to both prevent and respond to incidents.
